APPARATUS AND CHEMICALS REQUIRED FOR THE MYCOLOGICAL LABORATORY OF THE AGRICULTURAL DEPARTMENT.

DEAR SIR/GENTLEMEN,

Please be good enough to intimate your best prices, f.o.r., Bangalore, and the earliest time of delivery for the materials described in the attached schedule, in the form printed overleaf.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellations of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Apparatus and Chemicals required for the Mycological Laboratory" with the above enquiry number.

This enquiry will be closed on the 2nd December 1935.

To

*The Contractors dealing in Mysore Flags.*

*Enquiry No. 1599.*

MYSORE FLAGS.

GENTLEMEN,

Please be good enough to intimate your best price for free delivery at the offices in Bangalore and the earliest time of delivery for the materials described below :—

(1) Mysore Flag size 9 ft. × 6½ ft. of the approved pattern with a red woollen border.

(2) Mysore flag, size 4½ ft. × 3 ft. 1½ inches of the approved pattern, usually supplied to the Educational Institutions with a red woollen border.

*N.B.*—The "Mysore Insignia" should be correctly and neatly printed on a yellow ground and the Sanskrit letters should be legibly and correctly inscribed.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

(1) The Stores Purchase Committee do not guarantee the purchase of any definite number of flags.

(2) The contract will be in force for one year from the date of order during the whole of which period the prices accepted herein should hold good.

(3) All indents should be complied with within a fortnight from the date of their receipt.

(4) No application for enhancement of the rates during the period of the contract due to any reason whatsoever will be considered.

(5) Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specification will entail cancellation of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotation should be superscribed "quotations for Mysore Flags."

This enquiry will be closed on 18th November 1935.

*Enquiry No.* 1601.

INDUCTION VOLTAGE REGULATOR FOR DODBALLAPUR.

GENTLEMEN,

I write to request you to quote your best prices and earliest time of delivery for the following materials conforming to the specifications given below :—

*Item* (1) *One.*—Three-phase, Station-type, oil-immersed, self cooled, Automatic Induction Voltage Regulator, complete with operating motor, quick-acting, noiseless magnetic break, limiting switch, relay switch, contact making volt-meter, line drop compensator, etc., complete with necessary potential and current transformers, capable of boosting and bucking to the extent of 10%, the voltage of a 3-phase, 3-wire, 25-cycles, 4,600-volts bus of 600 K. V. A. capacity.

The equipment should include a recording volt-meter and 72 record rolls, suitable for volt-meter and all the automatic auxiliaries should be mounted on a hinged panel fixed to the regulator. As the voltage for the station service where this regulator is to be installed will be 230-volts, 25-cycles, the operating motor should be suitable for this voltage.

*Alternatively.*

*Two.*—Single-phase Regulators for the same service as above.

*Item* (2) *Two.*—Three-phase, automatic induction voltage regulators similar to Item (1) above but for controlling the voltage of 300 K. V. A. bus.

*Alternatively.*

*Four.*—Single-phase Regulators for the same service as above.

The regulators should be capable of operation at 4,600-volts, 25-cycles, and fully rated current for 24 hours with no part exceeding 55° C. rise measured by thermometer and the rise in coils determined by increase of resistance, over an ambient temperature of 40° C. under normal conditions of ventilation.

The design and construction of the regulators should be such as to withstand the electrical and mechanical stresses due to short-circuits on the line, and be able to carry momentary short-circuit currents of at least 20 times the full load current.

The regulators will have to be tested according to the latest standards of the A.I.E.E. or B.E.S.A. and test certificates will have to be submitted by the successful tenderer.

Full details regarding the equipment offered with illustrated sketches and pamphlets should be furnished with the tender and the copper and core losses in the regulator, and the power factor of the regulator itself, for both full load and half load conditions, should be specified.

The prices to be quoted should be for delivery c. i. f., Madras.

This enquiry will close on 20th December 1935.
